

Floor Cleaner C6HW

Alkaline Floor Cleaner

Features

Floor Cleaner C6HW is a custom formulated cleaning solution for use in the food industry. The product is a blend of sodium hydroxide, surfactants, and rinse aids.

Advantages and Benefits

The Floor Cleaner C6HW competitive edge:

- Penetrates and removes tough biofilms and deposits so that surfaces can be free-rinsed to bare metal cleanliness, saving labor costs and reducing chemical exposures with the sanitation personnel.
- Low odor and fuming potential during cleaning operations.
- Excellent stability and hold onto surfaces equates to increased *dwelt time*, a critical attribute that allows greater chemical reaction time to dissolve the contamination.

- Offers versatility in area of alkaline based detergents, assuring the right product for each application, instead of general purpose cleaners.
- Reduces the chemical and labor demands of subsequent cleaning and sanitation efforts.

Application & Equipment

Contact your TWI Sales Representative for application instructions. All floors must be thoroughly rinsed according to established SSOP's. The product is not designed for contact with food surfaces.

Precautionary Statements

Always wear proper protective equipment when using or working around this product. Consult the MSDS for safety information and handling precautions.
